

IAM: more than patents, beyond trade marks, way past IP. Fresh thinking from Watermark.

Other Countries where Watermark can act.

Watermark is also able to assist in particular Intellectual Property matters in countries other than Australia.

New Zealand

Our attorneys are able to practice directly before the Intellectual Property Office of New Zealand. This means that Watermark is able to look after your New Zealand intellectual property portfolio including filing and prosecuting of patents, trade marks and designs in New Zealand, just like we would here in Australia. Watermark also offers discounts if applications are filed simultaneously in both Australia and New Zealand.

South Pacific

Watermark is able to assist with trade mark queries and filings in a number of the South Pacific Island countries including:

- Papua New Guinea
- Fiji
- Kiribati
- Nauru
- Samoa
- Solomon Islands
- Tonga
- Tuvalu
- Vanuatu

If you have a specific query regarding filing a trade mark in the South Pacific or any intellectual property in New Zealand, please contact us.
